

in mozambique

5/7 sea turtle species occur

3 species nest in INHAMBANE PROVINCE

Inhambane has

~500KM

of beaches

Many people rely on the ocean as a source of free food.

HELP!

Including nesting turtles

and their eggs!

BUT

(\lt knowledge) + (\lt \$\$\$) + remote coasts =

V.	LIMITED
ENFORCEMENT	

TURTLES ARE PROTECTED IN MOZ

Throughout October to February Nesting and Hatching occurs

So far in 2013, nesting activity has been high.

NESTS HAVE BEEN LAID IN MANY AREAS KNOWN AS POACHING HOTSPOTS

In previous years, nests here have been destroyed.

NESTS ARE RAIDED & THE NESTING FEMALES ARE

KILLED

we need you to

HELP US

\$5

WILL ALLOW US TO WORK WITH LOCALS TO PROTECT THESE NESTS

ensuring they hatch naturally

It costs \$5 to cover 24 hours of nest protection

Nests take between 55-75 days to hatch (temperature dependant)

How many days of nest protection will you donate?
